

Our work

The main activity in the Centre is work based activities.

These include:

- ♣ Work activities like labelling, sponge picking, packaging
- ♣ Chores to assist with the running of the workshop
- ♣ Peer support where students assist students where appropriate
- ♣ Arts and crafts
- ♣ Walking group
- ♣ Dancing
- ♣ Social club
- ♣ Baking/cooking on fun Fridays
- ♣ Gardening
- ♣ Lifeskills

Activities are based on individual discussions and through an opportunity to try different activities and find where the student demonstrates skills and interests. If a student does not want to participate in a social or alternate activity, then the student can continue with their work task.

A very small stipend is given every week to students based on their work skill.

We have also encouraged entrepreneurial skills and last year we had our first Christmas Market.
